Dear Service Member:

- You have the right to quality, nurturing, and affirming support from your chaplain.

- If your chaplain is unwilling or unable to provide you such support, you should be referred to one who can.

- If your chaplain refuses support or referral, reach out for help to demand your rights.

Dear Chaplain:

- Are you able to assure me that you seek to provide nurturing and affirming spiritual care for LGBT service members?

- Are you able to assure me that you will offer the same quality of pastoral care for me and my same gender partner / spouse as you would for heterosexual couples?

- If you are unable to answer yes to these two questions, will you make a referral to a chaplain who will?
